1. INDUSTRY

This chapter on Management Discussion and Analysis forms a part of the compliance report on Corporate Governance.

As per the Economic Survey 2013-14, Services in India are emerging as a prominent sector in terms of contribution to national and states' incomes, trade flows, FDI inflows, and employment. In 2013-14 the growth rate of the services sector at 6.8 per cent is marginally lower than in 2012-13. This is due to deceleration in the growth rate of the combined category of trade, hotels, and restaurants and transport, storage, and communications to 3.0 per cent from 5.1 per cent in 2012-13, despite robust growth of financing, insurance, real estate, and business services at 12.9 per cent.

We Endeavour to Fly Higher

2. Opportunities and Threats

2.1 Opportunities

Financial Services Sector:

Financial Sector is an ever green market. The following are the growth drivers for the sector which shows the brighter prospects for the segment:

- Financial Inclusion
- Increase in incomes with potentially high penetration of both banking and Share Market products to increase the market size
- · Regulatory Reforms

Air Chartered Services Sector:

Air charter services in India have seen a fast track growth in the last few years though it is not a much explored area for business in India but It has a lot of potential in India, which has not so far been tapped by big corporate, big hospitals and tourism. The following are the growth drivers for the sector which presents big potential for growth of the business:

- Government
- VIP movements
- Tourism
- Medical Insurance Companies
- Corporate Travel
- Pilgrimage

2.2 Threats

GROWTH

DRIVERS

Regulatory decisions and changes: On the regulatory front, changes in policies by the regulatory authority may impact on the profitability of the Company. The Company may face competitive pressure from other players in the market, which may emerge due to the lucrative market in future.

Since the Air Charter industry is new in India, most people are unaware of its services and benefits. People might be uncertain of using this service due to high costs, and the very affluent are naturally of a limited number. Frequent changes in policies by regulatory authorities come as a hurdle for the Air Chartered Industry. Since a large number of Airways companies have come into the business, your company may face competitive pressures from existing and new players in the market.

So the Government must promote Air Chartered Services and thus help in the growth of this convenient and reliable mode of transportation. Government support is necessary if the Airways industry is to grow at an incredible rate. Rising fuel prices is another threat to the air charter industry. This along with a limited number of passengers will cause companies to increase their

fare and service charges, thus negatively impacting the industry. So, government participation is important to take Indian air charter industry to a world-class level.

However, In spite of all the challenges the Air Chartered industry is facing, the future still looks very bright.

3. Segment Wise performance

During the Year 2013-14, Your Company operated in Finance & Investments and Air Chartered Segment:

(Rs. In Lacs)

	Year ended 31.03.2014	Year Ended 31.03.2013
(a) Finance / Investments	52.99	62.15
(b) Air Chartered Services		93.69
Total	52.99	155.84

4. Outlook

The Indian services sector is at a stage that provides significant opportunities for growth and investment. With scheduled airlines going through a turbulent period, it is time to turn to a more reliable source of flying air charters. There has indeed been a slowdown and the Euro zone crisis has affected not only charter operators but also scheduled airlines. India has also not been isolated from this. However, the scope of the charter market in India is poised to expand as big infrastructure projects are being undertaken by the Indian government and private companies, both domestically and internationally. The key drivers for the growth of air charter services in India are primarily government, VIP movements, tourism, medical insurance companies, corporate travel, pilgrimage, and others. Taking into account this factor, the Air Charter Business is also moving with pace simultaneously and we plan to expand our business in coming years.

Going forward, the year 2014-15 seems to augur well for the services sector with expansion in business activity in India as also indicated by some indices. There are also signs of revival in growth of the aviation sector with the announcement of new players like Air Asia and Tata-SIA Airline after a turbulent period of withdrawals and losses by some airlines. Indications of revival in world GDP and trade growth in general and of developed countries in particular, could help in revival of the tourism and shipping sectors. With a stable government in place and growing optimism which could translate into investment and growth, some quick reforms and removal of some barriers and obsolete regulations in the services sector could help. The downside risk however is the fragile global situation.

5. Risks and Concern

For a company to grow, necessary risks are always involved. Risks indicate progress, but they are never fixed. They may vary from the industry type to planning strategies and various other factors. Some of the threats concerning this company are:

- Changes in Government policies may affect the company significantly
- Any crises in Gulf countries may pose a major problem for fuel
- Natural Calamities
- Inflation, particularly in India, which could increase our costs and decrease our operating margins;
- Business of Air Chartered service is substantially dependent on foreign tourist
- Though it is an organized sector, it still faces stiff competition from other service providers.

6. Internal Control systems and their adequacy

7. Financial Outlook

Complete financial performance of the company has been reviewed. With the expansion plan in place the coming year is expected to be better.

8. Human Resources

The Backbone of your Company

Human resource department is the main force behind the success and growth of any company. People who give hundred percent at work take the company to greater heights and are considered the most valuable resource. The dedication and passion that our employees display at work is commendable. As for the staff at operations centres, finding well trained and well educated employees is not a problem anymore. We have some of the most experienced and the best work force in the air charter industry. Various training programmes and workshops are arranged for employees regularly to keep them updated and improve their skills. This also helps staff in improving their performance levels and keeps them motivated at work. Air Cabs are not mass transportation vehicles. It costs much more to the commuter and is also more personal. Therefore, offering quality services becomes a top priority. Since the Staff is the face of the company, it is crucial to select the best.

9. Risks Management

The Risks Management policies of the Company ensure that all the moveable and immoveable assets of the Company are adequately covered. Strategic plans for the company's businesses take into account likely risks in the industrial environment from competition, changing customer needs, obsolescence and technological changes. The annual plans that are drawn up consider the risks that are likely to impact the company's objectives in that year, and the counter – measures put in place. To manage operational risks, MCL has well documented policies and procedures, which are followed in its day-to-day working. Besides, the Company is prone to usual risks of the business like change in demand, any change in policy of the Government, International agreements on trade and tariffs etc.

Company's philosophy on code of Corporate Governance

Mega Corporation Ltd. (MCL) defines Corporate Governance as a systematic process by which companies are directed and controlled keeping in mind the long-term interest of shareholders. The Company emphasizes on transparency, independence, accountability, fairness and social responsibility. It focuses on equitable treatment of all shareholders and reinforces that it is "Your Company" and it belongs to you, the shareholders. The Chairman and the Board of Directors are your trustees pushing the business forward in maximizing long-term value for its shareholders.

MCL's Corporate Governance is based on two core principles:

- I. Management must have the executive freedom to drive the enterprise forward without undue restraints; and
- II. This freedom of management should be exercised within a framework of effective accountability.

MCL believes that any meaningful policy on Corporate Governance must empower the Executive Management of the Company. At the same time Governance must create a mechanism of checks and balances to ensure that the decision-making powers vested in the Executive Management are used with care and responsibility to meet the shareholders aspirations and societal expectations.

The above belief and core principles of Corporate Governance adopted by MCL leads the company's governance philosophy, trusteeship, transparency, accountability and responsibility which in turn is the basis of public confidence in the corporate system.
